Dear Ms. Hunsaker:

Please recall that the Division of Radiation Control licenses the Denison Mines uranium mill near Blanding, Utah. Denison Mines is required by their radioactive material license to evaluate archeological sites. Denison Mines asked me to forward to you, for your approval, a work plan to investigate fourteen archeological sites on their property.

If I can provide additional information about this matter, please call me at 801-536-4250.

Sincerely,

Dane L. Finerfrock  
Director
